The Amber House is a house with a modern and contemporary influence in connection with all spaces. It consists of construction spaces distributed in two area levels.

From the main entrance, we can see that the house has very open spaces and high ceilings. The social areas such as the kitchen, the living room and the dining room are proposed to interact with each other in order to achieve a good use of the spaces of all the users of the house. Also in the first level we have the main bedroom equipped with a spacious bathroom and walking closet with exterior views but considering the privacy.

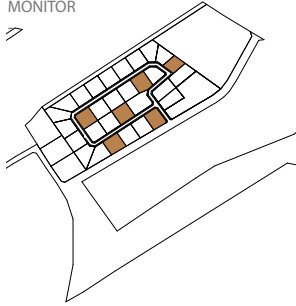

Additional to this, you can see from inside all the spaces outdoors. As the warm jacuzzi and the pool to enjoy with a seating and bbq area.

In the second level taking the stairs, we have two more main bedrooms with bathroom and walking closet plus a working station.

Exterior Area + 2 Parking Lots
